The following selection is available in our "Alcove" area of our restaurant. This is a semi private area overlooking Dubbo with immediate access to our wonderful large balcony.

We have available to our guests a full private bar facility for which we open on special occasions outside our normal restaurant hours for events such as a wake.

When arranging a wake it is important to understand that more often than not most wakes are held around the "lunch" hour of the day and many guests may have travelled some distance. We find on many occasions that they are looking for something along the lines of "lunch" style dining. We serve all platters of food in a self-service mini buffet style.

We feel these above choices work extremely well when a selection has been pre-arranged with our catering manager who will ensure your event is exactly what you are requiring.

You are welcome to stay as long as you like providing this area is not pre booked for dinner groups as we have no time limit on our facilities. Alternatively you may like to move into our lounge bar area.

We hope this helps and should you have any queries please do not hesitate to contact us as we would be only too happy to assist you.
